

MODULE Y. WOMEN'S EMPOWERMENT IN AGRICULTURE INDEX

NOTE: The information in Module Y1 can be captured in different ways; however there must be a way to a) identify the proper individual within the household to be asked the survey, b) link this individual from the module to the household roster, c) code the outcome of the interview, especially if the individual is not available, to distinguish this from missing data, d) record who else in the household was present during the interview. This instrument must be adapted for country context including translations into local languages when appropriate.

Enumerator: This questionnaire should be administered separately to the primary and secondary respondents identified in the household roster (Section A) of the household level questionnaire. You should complete this coversheet for each individual identified in the "selection section" even if the individual is not available to be interviewed for reporting purposes.

Please double check to ensure:

- You have completed the roster section of the household questionnaire to identify the correct primary and/or secondary respondent(s);
- You have noted the household ID and individual ID correctly for the person you are about to interview;
- You have gained informed consent for the individual in the household questionnaire;
- You have sought to interview the individual in private or where other members of the household cannot overhear or contribute answers.
- Do not attempt to make responses between the primary and secondary respondent the same—it is ok for them to be different.

MODULE Y11: TIME ALLOCATION

Enumerator: Y11.01: IF QUESTIONNAIRE TAKES 2 DAYS, DO THIS MODULE ON THE FIRST DAY. IF YESTERDAY WAS A HOLIDAY, USE THE DAY BEFORE YESTERDAY AS A REFERENCE. The following chart is portrayed in ETHIOPIAN time. Please record a log of the activities for the individual in the last complete 24 hours (starting yesterday morning at 10 PM, finishing 9:59 PM of the current day). The time intervals are marked in 15 min intervals and one to two activities can be marked for each time period by drawing a line through that activity. If two activities are marked, they should be distinguished with a P for the primary activity and S for the secondary activity written next to the lines. Please administer using the protocol in the enumeration manual.

MODULE Y11 continued: SATISFACTION WITH TIME ALLOCATION

ENUMERATOR: Use scale below to demonstrate the concept to respondents, where 10 means respondents are very satisfied, and 1 means they are very dissatisfied with their time for leisure activities.

QNo.	Question	Response	Response options/Instructions
Y11.02	How satisfied are you with your available time for leisure activities like visiting neighbors, watching TV, listening to the radio, seeing movies or doing sports?		READ: Please give your opinion on a scale of 1 to 10. 1 means you are not satisfied and 10 means you are very satisfied. If you are neither satisfied or dissatisfied this would be in the middle or 5 on the scale.
